

Italian Imported Meat Slicer

Since 1949

Our manual professional slicing machines are Imported from Italy and made from cast iron and aluminum with all the surfaces that are exposed to food made from stainless steel. The unique cutting style works with a flywheel and a 14 inch "Durochrom" blade made for universal cutting. Every slice is very precise, one full rotation equals three rounds of cutting which makes it perfect for slicing Prosciutto to American style cold cuts. This elegant and beautiful slicer sits over 5 feet tall which can be customize from a wide range of colors; add your logo to custom brand your slicer giving your store and products an authentic look your customers will sure to appreciate.

Slicer Weight: 275 lbs.
Cast Iron Stand weight: 187 lbs.
